Whatever your age, becoming a mum for the first time brings with it excitement, anxiety and numerous challenges. But how do you cope when, to top it all, you discover you are old enough to be

the mother of everyone else in your NCT group? The story of one woman, one new baby, a slipped disc and rather too many wrinkles, *The Secret Diary of a New Mum (Aged 43 1/4)* follows the tale of a midlife mum as she tries to make the transition from experienced TV producer to utterly inexperienced parent. One in five babies is born to a mum over 35, and the number of over 40s giving birth has doubled. The first humorous narrative account of what it's really like to be a midlife mum - whether it's deftly side-stepping any questions about age and baby number two or weeping as younger counterparts ping back into their size ten jeans within thirty seconds of giving

birth - this is the thoroughly entertaining, insightful and often hilarious account of what happens as you face up to menopause and new motherhood at the same time.

Why is the Mona Lisa the most famous painting in the world? Why did Facebook succeed when other social networking sites failed? Did the surge in Iraq really lead to less violence? And does higher pay incentivize people to work harder? If you think the answers to these questions are a matter of common sense, think again. As sociologist and network science pioneer Duncan Watts explains in this provocative book, the explanations

that we give for the outcomes that we observe in life-explanations that seem obvious once we know the answer-are less useful than they seem. Watts shows how commonsense reasoning and history conspire to mislead us into thinking that we understand more about the world of human behavior than we do; and in turn, why attempts to predict, manage, or manipulate social and economic systems so often go awry. Only by understanding how and when common sense fails can we improve how we plan for the future, as well as understand the present-an argument that has important implications in politics, business, marketing, and even everyday life.

Slammed, Smeared, Savaged and Slaughtered is the companion book to Shakespeare: S, S, S and S, Part II. *Pieces of Eight* Viking Angelique's spirit is almost broken. She has sacrificed, she has trained, and she has driven herself to exhaustion while battling her way across the continent. But all her efforts have led to nothing. She still hasn't uncovered Evariste's location, or the identity of his captors. Yet the occurrences of evil magic across the continent show no sign

of slowing. Wyverns, goblins, trolls, and other evil creatures have become almost commonplace. And the attacks on the royal families and her fellow mages have continued to escalate. When Angelique is ambushed by one of those who kidnapped Evariste, she is forced to face the truth: her core magic—which she despises—may be the only thing standing between her world and the coming darkness. For those who have captured Evariste aren't finished. And their plans are far older and more devastating than anyone could have guessed.
